📄 SUMMARY

I have a high inquisitiveness towards learning & experimenting. I always seek to drive solutions for existing problems using technology. I have been a Software Developer & Network Administrator with over 2 years of experience in cloud computing. I have a steep inclination towards problem solving skills. I have been working directly with customers and have gained customer handling experience by providing overall customer satisfaction. I am looking forward to work in a challenging atmosphere by exhibiting my skills with utmost sincerity and dedicated smart work for the growth of your esteemed organisation along with mine.
